Enhance Your Career with Quanta Training

APPROVED BY THE MOD
IN SUPPORT OF
THE ELC SCHEME

In-Service | Resettlement | Civvy Street

ELC Training Provider

The Quanta Forces Training Team is on hand to assist you with your in-service, resettlement or service leaver training.

We see ourselves as your dedicated Training Partner, providing personnel the best start to resettlement and preparing you for a successful future.

With 15 years of ELC Marketplace experience, we like to think we have a good understanding of your needs!

ELC Course Information

Quanta is an approved ELC training provider. We offer packaged training options to maximise the use of your credits. This means we can offer you more than one course for your current allocation of Enhanced Learning Credits, allowing you to take full advantage of your allowance.

We're here to help you gain internationally recognised qualifications along with some practical guidance to get you on the right path.

Teresa Rooney
Armed Forces Relationship Manager

0800 018 0076

How does the ELC scheme Work?

Have 80% of your course paid!

The ELC scheme entitles you to have 80% of your course paid for (between £1000 and £2000 depending on length of service). Service leavers between 6 and 8 years can aggregate claims together giving you £3000 in one hit.

The ELC can be put towards a qualification of **Regulated Qualification Framework (RQF)** Level 3 or above. We focus our course offering specifically around the ELC entitlement, with the primary aim of reducing cost and increasing knowledge.

With the exception of the aggregated award, only one ELC can be used each financial year.

For the latest guidance on ELCAS funding, please visit enhancedlearningcredits.com

*between £1000 and £2000 depending on length of service.

Our courses allow you to:

Become Qualified in at least one **RQF Level 3 or above** qualification

Increase your understanding of the **subject area**, targeted towards identified **career pathways**

ELC can be used against as many as **three courses within one financial year**

Save a significant sum of **money** through discounted ELC price cost combinations. This represents a huge cost efficiency, considering the sheer scale of tutor-led content given

Plan your **qualifications** in an order that **aids the learning process**, whilst also fitting in with your requirements

Make best use of **all three claim entitlements**

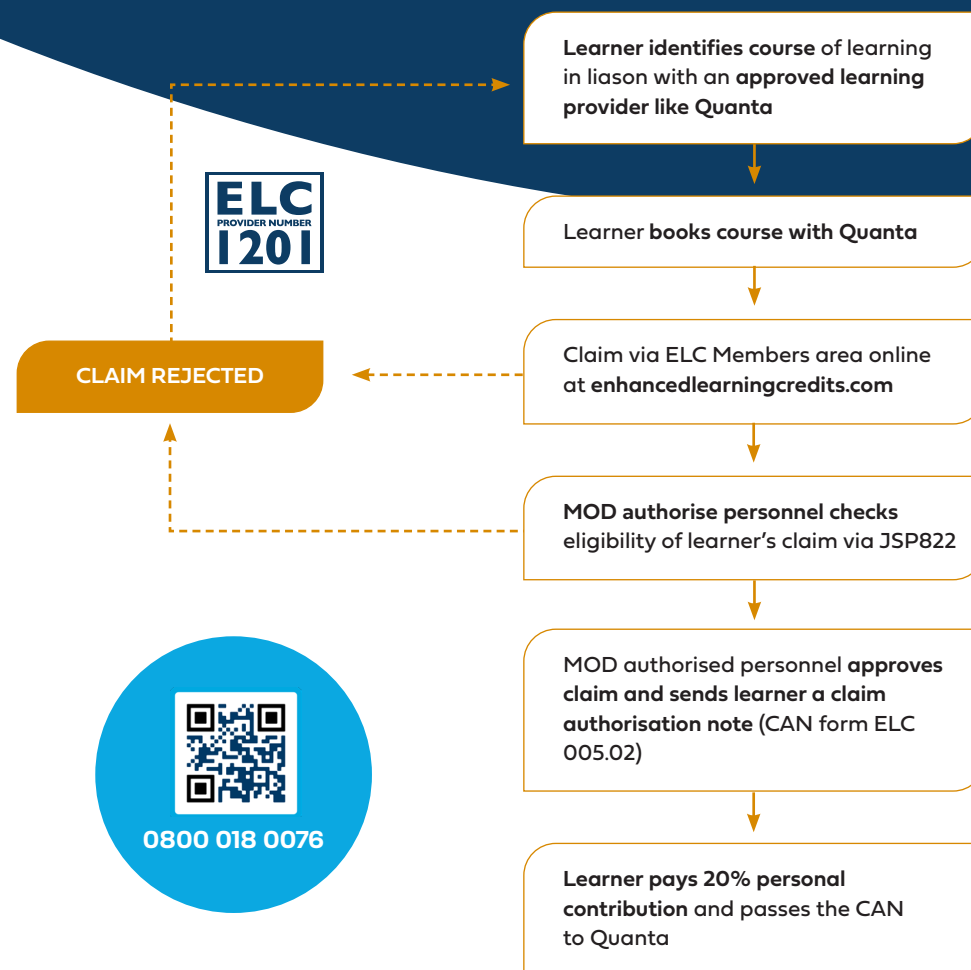

Benefit from a **highly experienced team** who are always at hand to **help you with all aspects of your learner journey**

How to Claim

- When you have decided on a course, you will need **get in touch with ELCAS**.
- The flowchart outlines all of the **stages necessary to book a course and claim ELC Funding**.

Enhanced Learning Credits (ELC) Scheme Claim Process

Quanta were extremely professional and helpful. From sign up, support from the reception, through to the Trainers who have a wealth of experience. The Trainer delivered an interactive and engaging course, imparting invaluable knowledge and pearls of wisdom. I would fully recommend Quanta to others!

We also provide instructor led virtual classroom learning, offering the same high quality training with the added convenience of learning from any internet enabled device.

Dedicated Resettlement Team

Our team of advisors specialise in working with ELC candidates. As such, you can rely on us to answer any queries that you may have. We have the experience and knowledge to ensure that you get the most out of your ELC entitlement. If you can; come and visit us at our Worcester training centre for a chat!

Award Winning Service

Quanta Training is extremely proud to have won numerous prestigious awards that recognises the high quality training and service we provide to Service Leavers.

Strong Resettlement Advisor Relationships

Our ELC Advisors are in constant dialogue with education centres nationwide. Our great working relationship is inspired by our shared goal – to make your lives easier.

Your learning journey with Quanta starts here...

Combine Courses

We can combine courses that offer you more than one qualification for your allocation of Enhanced Learning Credits, allowing you to take full advantage of your allowance.

Training Options

We offer a full range of courses at our specialist training centre in Worcester.

Pr Project and Programme Management Training Courses

Pr

5 DAYS

PRINCE2® 7 Combined (Foundation and Practitioner)

PRINCE2® 7 (PROjects **I**N **C**ontrolled **E**nvironments) is a best practice framework for effective project management. This course will equip you with the fundamental skills needed to be a successful project manager. The PRINCE2® 7 framework is widely recognised as an industry standard in the UK and Europe across multiple Industry Sectors and can be tailored to suit any project you are managing.

You will learn to use the methodology to control budgets and quality standards and bring projects on time.

Who is this course for?

The course will benefit project managers, team managers/leaders, project and quality assurance or support staff who wish to gain the Practitioner qualification in PRINCE2® 7.

It is also suitable for those wishing to gain a formal qualification after a couple of years of project management experience.

Pr

5 DAYS

MSP® Combined (Foundation and Practitioner)

MSP® (Managing Successful Programmes) is an Internationally recognised best practice programme management method is designed for professionals who lead, manage or support transformational change. MSP® is principle based approach focussing on ensuring project outputs translate into business outcomes and benefits.

MSP® is the de facto standard developed by the UK government for delivering change programmes in the UK. It can be tailored to suit any type of working culture and any size or type of programme. MSP® Teaches complex change management, risk management, stakeholder engagement, how to prepare for transition and benefits evaluation.

Who is this course for?

- Existing or aspiring programme managers.
- Anyone involved in the direction, management, support and delivery of programmes or multiple projects will benefit from this training.

Pr

DAYS

APMG Managing Benefits Combined™ (Foundation and Practitioner)

The APMG Managing Benefits combined course is applicable for use in projects, as well as for wider business change activities, and is suitable for a range of business professionals to help your organisation maximise the impact of effective benefits management. This course from APMG consolidates existing guidance on benefits management into one place, while expanding on the specific practices and techniques aimed at optimising benefits realisation.

Who is this course for?

- Senior executives, Senior Responsible Owners (SRO's) / Sponsors/ Project Board Executives and Project and Programme management (PPM), Change Management professionals, Portfolio managers and Portfolio Office staff, Business case writers, Finance professionals, Economists, Business Managers and others with an interest in successful delivery of change.

Pr

4
DAYS

APMG Better Business Cases Combined (Foundation & Practitioner)

This APMG-accredited combined course is based on the 'Five Case Model' – the UK government's best practice approach to developing spending proposals and enabling effective business decisions – a comprehensive strategic and systematic approach for developing a business case.

Throughout the course you will learn how to create proposals that accurately scope requirements, support the initiation of successful change activities and secure management support and funding for your organisational change initiatives.

Who is this course for?

- Senior Responsible Owners (SROs), Programme Directors and other Directors with responsibility for the successful delivery of programmes and projects.
- Project Managers, Project Team members and specialist advisers tasked with delivering a business case for investment.
- Officers involved in the scrutiny and review of investment proposals.

Pr

3
DAYS

Management of Risk (M_o_R® 4) Practitioner

Management of Risk (M_o_R®) is the best practice developed by the UK Government. In today's business environment risk is being put under the spotlight more and more and this intensive course will introduce you to risk at project, programme, business and strategic levels.

Effective management of risk and informed risk-taking helps to improve performance through innovative approaches for managing the business, service delivery and value for money. Risk is often perceived as a negative, but this course will show you it can equally be a positive force.

Who is this course for?

- Portfolio, Programme and Project Professionals
- Staff with risk management responsibilities, in project, programme or operational activities,
- Staff who are involved in improving risk management practice in their organisation. Including; Operational; Risk; Business Change Managers and Directors.

Pr

5
DAYS

APMG Change Management Combined (Foundation and Practitioner)

The course is designed to help change management practitioners define and practice change management successfully.

It offers practical tools, techniques and models to support and change initiative. Change Management Combined is relevant in multiple industry sectors worldwide.

Who is this course for?

- The course will be of use for those that are responsible for introducing a change or for those affected by it.
- Those involved in project, programme and portfolio management will benefit from attending as the course offers approaches that complement, and would make more likely the success of, project, programme and portfolio management approaches.

Pr

5
DAYS

M_o_P® Combined (Foundation and Practitioner)

This is a Portfolio Management qualification. It covers the two primary aspects, which organisations need to consider when running portfolios:

- 1: Management of Portfolios (MoP) approaches the Management of change projects and programmes to meet strategic objectives while working to stay within your resourcing constraints
- 2: Teaches practitioners what to consider about implementing the right changes to business as usual via projects and programmes to ensure they are being run well.

As a course it requires some experience of Projects and/or Programmes and some exposure to selecting those Projects and/or Programmes.

We suggest that in addition to this course, learners undertake either **MSP® Combined** (Foundation and Practitioner), **P3O® Combined** (Foundation and Practitioner) or **M_o_R® 4 Combined** (Foundation and Practitioner).

Who is this course for?

- Any organisation or individual seeking to develop their skills in effective Portfolio Management.
- The course is suitable for senior managers and decision makers, practitioners involved with Programme or Project Management (PPM) and Change Management.

Pr

- Those wishing to enhance their Product Owner skills further in order to better deliver value to their stakeholders.

Quanta have been absolutely excellent from the personnel that initially helped me chose a package of courses to the actual instructional staff. All have been courteous, professional and helpful at all times. I would and have recommended the company to a number of my colleagues.

It IT Courses

Quanta, have been excellent. The admin team bent over backwards to help me when booking and were extremely pleasant to deal with. The instructors were very knowledgeable and extremely helpful, with both teaching and sharing their industry advice and expertise.

CompTIA A+ Fast Track

The CompTIA A+ certification is the industry standard for computer support technicians. The international, vendor-neutral certification which proves competence in areas such as installation, preventative maintenance, networking, security and troubleshooting. This course will prepare delegates for the CompTIA A+ exam, which they can take at their leisure.

Skills taught include PC hardware and peripheral maintenance, operating system support and networking concepts.

Who is this course for?

- Computer Service Technicians, Field Support Technicians, Help Desk Technicians, Network Support Technicians, PC Technicians, Service Centre Technicians, Hardware Installation Coordinators
- Anyone wishing to gain a fundamental knowledge of all aspects of operating systems that will allow them to carry out everyday support tasks.

It

5
DAYS

CompTIA Network +

This course teaches you how to manage, maintain, troubleshoot, install and configure a basic network infrastructure.

Provides you with a wide technical knowledge of networking, covering all the basic networking components used in today's environments, along with a range of protocols, cable types and network devices.

Will give you an understanding of network hardware, installation, troubleshooting techniques and different protocols used in local area networks (LANs) and wide area networks (WANs).

Who is this course for?

- Desktop Technicians, Field Support Technicians, Help Desk Technicians, Network Support Technicians, Service Centre Technicians, Technical Writers, Installation Specialists,
- Anyone who wants extensive technical knowledge about the components of a network and networking.

It

5
DAYS

CompTIA Security +

This course is ideal if you want to further a career in IT Security and is an excellent introduction and a solid foundation for more advanced security certification.

You will learn about network security, compliance and operational security, cryptography, application data and host security, threats and vulnerabilities and identity management.

This course will build upon your knowledge and professional experience with computer hardware, operating systems and networks as you acquire the specific skills required to implement basic security services on any type of computer network.

Who is this course for?

- Internet Security Specialists, IT Compliance Specialists, Network Administrators, Network Analysts, Network Support Technicians, System Administrators, Database Administrators, Software Engineer
- Information Technology (IT) professional who has networking and administrative skills in Windows-based TCP/IP networks and familiarity with other operating systems, such as NetWare, Macintosh, UNIX/Linux, and OS/2.

CompTIA CySA +

This course is ideal if you want to further a career in IT Security and is an excellent introduction and a solid foundation for more advanced security certification.

Teaches critical knowledge and skills that are required to prevent, detect and combat cyber security threats. Applies behavioural analytics to networks and devices to prevent, detect and combat cyber security threats.

CySA + is the most up-to-date security analyst certification that covers advanced persistent threats in the cyber security environment.

Who is this course for?

- Delegates looking to expand their cyber security knowledge or to obtain the CYSA+ qualification.

CompTIA PenTest +

The CompTIA PenTest+ certification verifies that successful candidates have the knowledge and skills required to plan and scope an assessment, understand legal and compliance requirements, perform vulnerability scanning and penetration testing, analyse data, and effectively report and communicate results.

Builds on security basics by covering various penetration tests for different technologies and network components.

Who is this course for?

- This course is for cybersecurity professionals tasked with penetration testing and vulnerability management.

It

5
DAYS

EC Council Certified Ethical Hacker (CEH) v11

As an internationally recognised qualification, not only will this course and its accompanying qualification prepare you for a career in cyber security, but it will also enhance your ability to work in any part of a SOC or CSIRT.

Who is this course for?

- Information Security Analyst/Administrator, Information Assurance (IA) Security Officer, Information Security Manager/Specialist, Information Systems Security Engineer/Manager, Information Security Professionals/Officers, Information Security/IT Auditors, Risk/Threat/Vulnerability Analyst, System Administrators, Network Administrators and Engineers

ITIL®4 Foundation

Relevant to **ANYBODY** looking to get a job in any IT role. Increasingly a requirement to even get an interview in some organisations. Start your journey with the latest version of the world's most used Service Management framework.

This course provides a broad-based view of the ITIL®4 framework's approach to Service Management. It covers a broad range of material at a high-level, as would reasonably be expected from a 'Foundation' course, with specific depth in key areas of service management and its practice.

Who is this course for?

- Service Desk: Agents, Team Leaders, Manager roles.
- IT Operations: Any infrastructure or support role.
- Network Management roles
- Applications development and support roles
- Individuals and Organisations that are actively engaging with new areas of practice such as Lean and DevOps will gain from understanding how ITIL®4 can help them embrace these areas with IT Service Management.

ITIL®4 Specialist Create, Deliver and Support

Learn how to create services and assure continual value co-creation using the latest ITSM framework, as well as Agile and Lean delivery principles.

This course is the essential follow on from ITIL4 Foundation for anybody looking to do more with ITIL4 than just understand the basics. It makes sense of the ITIL4 Operating Model and places ITIL into the IT 'Business as Usual' space.

Relevant to anybody looking for IT team leader and managerial roles, particularly Service Desk and IT Operations roles. Very broad base of relevance to anybody looking for IT Operational Management roles.

Who is this course for?

- Service Desk team leaders, manager roles
- **IT Infrastructure and Applications:** Any role related to support or service design and development
- Service Delivery managers

ITIL®4 Strategist Direct, Plan and Improve

Direct, Plan and Improve is the one and only ITIL4 Strategist course. It focuses on the higher level management capabilities that an agile service delivery organisation requires in order to align and remain aligned with business need and an ever-increasing pace of change to deliver services to.

Ensuring that a strategic, business-focused approach to service management is taken is key to the business co-creating value and maintain competitive advantage. With IT services embedded so deeply in digitally transformed organisations, this has never been more important.

This course is essential for any role that has a focus on continual improvement of IT services and business value creation. It also supports roles that are involved in any IT risk and governance activities. It also covers organisational change management and so is useful for IT project and program managers.

Who is this course for?

- Service Delivery Managers, IT Project & Program Managers, Continual Improvement Managers
- Any IT role with a specific continual improvement consideration

ITIL®4 Specialist Driving Stakeholder Value

This course is targeted at roles that have a high degree of engagement with the wider business/organisation, such as Business Analysts and Business Relationship Managers.

Any IT manager that has to work closely with business roles and manage the delivery of IT services from 'cradle to grave' to ensure the experience of the IT service is as positive as possible can benefit from this course.

Who is this course for?

- Business Relationship Manager roles, Business Analysis roles, Service Owner roles, Service Delivery Manager roles, IT project and program roles

ITIL®4 Specialist High-Velocity IT

Learn how service management best practice can work with emerging practices like Lean, DevOps and Agile to enable digital transformation in your organisation.

High Velocity IT puts service management into the heart of digital transformation. This course is for organisations that are practising service management, or want to, but need to integrate it with DevOps, Leans, Agile and other new, or new to ITIL, approaches

This course is relevant to anybody looking at roles that require an ability to work in a Lean or Agile way. It covers how ITSM works in Agile environments and how that affects IT service delivery.

Who is this course for?

- IT Managers working in or with Agile teams who need more on integrating ITIL with Lean, Agile, DevOps
- Software development team leaders, managers that are working in or towards more Agile ITSM working methods.
- IT Project Management roles in Agile organisations

ITIL®4 Strategist Digital and IT Strategy

For those with a significant background in IT – the syllabus expects people to have a decent knowledge of IT and its management.

Who is this course for?

- Anybody with existing IT senior team leader, middle management or higher experience looking to gain more insight into the strategic considerations for IT service management and delivery and how it impacts the wider organisation.
- People who are looking at this course will already know whether it is right for them or not if they are asking for it – if people have to ask whether the content is right for them it probably isn't.

ITIL®4 Specialist Sustainability in Digital & IT

"Sustainability - Achieving our goals now while not compromising the goals of future generations".

A key part of any organisation's mission now is working towards and then demonstrating sustainability to its shareholders, customers and the wider world.

This course aims to help organisations in this aim by providing an insight into what sustainability is and how it might be delivered by understanding what it means to us, how IT impacts it and what can be done with digital and IT to achieve it.

Who is this course for?

- Delegates that are interested in learning more about what it means to be a sustainable organisation and what IT's role is, positively and negatively, in the journey.

QUANTA TRAINING HOLD THE KEYS

Case Study

My Journey through the Resettlement Maze

Quanta quickly understood my needs and understand the resettlement process back-to-front.

by John Hook
SQN LDR, Royal Air Force

After over 36 years in the service, I made the decision to leave the RAF in late-summer 2021. Having already initiated the resettlement process in 2019 due to time served, that was one less hurdle to overcome however, from pressing the button on JPA to leaving, I had just over 8 weeks left in uniform. Daunted? Yes! Apprehensive? Yes! Determined to get relevant training and the best value for money from the fantastic resettlement offers the service provides? Of course!

The resettlement process, my IERO and my CTP manager all signposted me towards the network of resettlement training providers and I surveyed a plethora of opportunities. In doing so, I wanted to get the best value for my IRTC and the ELC's burning a hole in my soon-to-be-retained uniform pockets.

I was fortunate enough to have been offered a role starting in early 2022 and as the role would involve programme management and the management of risk, this would be my focus. Daunted? No, not anymore.

Conversations with colleagues, friends and my embryonic resettlement network (top tip: everyone says it, but you really must network to achieve your goals!), allowed me to identify two courses to support me in my future role. CTP and Quanta Training Ltd both offered the Managing Successful Programmes (MSP) course and Management of Risk (MoR) courses. Both suited my timeline as both training providers met my needs to provide face-to-face training opportunities. Apprehensive? No, not anymore.

After one call to Quanta, I knew where I wanted to undertake my training. Quanta quickly understood my needs and understand the resettlement process back-to-front. I was able to fully exploit every IRTC penny and one ELC and successfully enrolled on MSP and MoR training at the Quanta training centre in Worcester. The training is highly rated. Successfully attending and passing both courses at the first attempt was down to their first-class trainers who are knowledgeable, relevant and above all, trainee focussed. Having now successfully landed in my new role in the private sector as a Veteran, I use aspects of both training courses on a daily basis. Relevant training and value for money? Tick!

I remain thankful for the advice from Quanta along my resettlement journey. For those who have attended training at their Worcester HQ, you will be familiar with one of the best training set ups around. Established to support the learner from the minute you enrol to the day you leave with your training certificate; Team Quanta is a familiar face amongst the resettlement maze. Every member of the company is dedicated to unlocking that maze and unlocking your potential on your resettlement journey. I would highly recommend Quanta as your 'go to provider' for resettlement training.
